

I do not want the LPFM format to take precedence over the FM translators. We listen to nationally-broadcast K-LOVE radio, and we love it. It meets the needs of the Christian community here in Albuquerque, and also connects us to the greater state and national music scenes. There absolutely must be NO interruption in service of this vital radio service. We believe in K-Love so much that we support them annually with \$700 in gifts, because they provide suicide counseling, a place to get prayer, FABULOUS music, and news, all without concerns of obscenity or impropriety or even words like "Sex and the City." Thank you for allowing me to voice my concerns. Jenny Migdal
